WORK EXPERIENCE

INTERN WEB DEVELOPER

Jun 2022 - Present

ANSWER POWER

During my internship with ANSWER POWER, I was responsible for building and maintaining web applications using React and related technologies.

I was responsible for developing responsive, user-friendly interfaces using HTML, CSS, and JavaScript.

I worked on Implementing third-party APIs to integrate additional features and functionality.

FREELANCE WEB DEVELOPER

Oct 2021 - Jun 2022

UPWORK AND LOCAL CLIENTS

As a freelance web developer on the Upwork platform, I completed projects involving website cloning and static website building using HTML, CSS, and JavaScript. The projects required me to design and develop websites that mirrored an existing site, while also incorporating custom elements and ensuring responsive design across multiple devices.

INTERN WEB DEVELOPER

Jun 2021 - Sep 2021

ARAPPDEV

During my time as an intern at Arappdev, I gained valuable experience working with WordPress and providing IT services. I was responsible for formatting computers, installing WordPress, managing plugins, and other IT-related tasks. Additionally, I worked on WordPress development projects, helping to create custom websites and ensuring their functionality.
